THE RECORDER

A PUBLICATION BY:
STARK COUNTY RECORDER
RICK CAMPBELL

Historical Book on Display at the Stark County Recorder's Office

Along with others, Volume C was set to be destroyed. When Rick Campbell became the Stark County Recorder in 2001, he learned of the terrible fate that was to become of these treasured pieces of history and removed all historical books from the destruction list.

It is our honor to share a small piece of Stark County history with the visitors of the Stark County Recorder's office. Volume C contains land patents, deeds, and mortgage dated before Stark became a county in 1809. We are proud to be able to display documents signed by Presidents Thomas Jefferson, James Madison, and James Monroe.

*"Our goal is to continue to
make accessing your
documents a quick and easy
process."*

We Are Approaching 100,000 E-Files!

The Stark County Recorder's Office was the first in Ohio to accept electronically filed documents in 2005. A year later, we were the first Recorder's Office in Ohio to accept electronically filed deeds. Today, these electronic filings make up approximately 30-40% of our daily work load.

This coordinated effort between Stark County Recorder's Office and the Auditor's Office was accomplished to better integrate the county's data and improve the service provided to the citizens of Stark County. This allows attorneys, title companies and banks to route remotely filed documents to the County's Tax Map Division and the Auditor's Conveyance Division before being processed by the Recorder's office all with the single click of posting a transaction.

If your company is interested in filing documents electronically, please visit our website to learn more.

Recorder's Office Reduces Budget

In January, the Stark County Recorder met with the Stark County Commissioners to present the proposed budget for 2014. Your Stark County Recorder was able to reduce the 2014 budget by four percent from 2013, while the Microfilm Department budget was reduced by nine percent.
